PROFESSIONAL SUMMARY

Cloud Engineer with 3+ years of experience designing and maintaining reliable infrastructure solutions. Passionate about automation, system reliability, and cloud technologies.

SKILLS

- AWS
- Python
- Docker
- Git

EXPERIENCE

CLOUD ENGINEER

Skyline Technologies | Jan 2022 – Present

- Managed cloud infrastructure supporting high-availability production workloads.
- Automated infrastructure monitoring and maintenance tasks using Python.
- Implemented Docker-based deployment solutions for internal applications.
- Improved system uptime through proactive monitoring and incident response.

IT INFRASTRUCTURE ASSOCIATE

Metro Systems | Jun 2020 – Dec 2021

- Assisted with cloud migrations and infrastructure upgrades.
- Maintained deployment scripts and documentation.
- Supported troubleshooting and system performance optimization efforts.

EDUCATION

B.S. in Information Technology

University of Illinois Chicago | 2020

PROJECTS

INFRASTRUCTURE AUTOMATION TOOLKIT

- Built Python automation scripts for server provisioning and configuration management.

- Reduced manual deployment effort by approximately 50%.

CLOUD COST OPTIMIZATION INITIATIVE

- Analyzed AWS resource utilization and implemented recommendations that lowered monthly infrastructure costs by 18%.

CERTIFICATIONS

- AWS Certified Cloud Practitioner
- Docker Foundations Professional Certificate
